

Type SE 33

Type S 33

### Optional equipment:

Stone-collar „SK“

### A compact standing oven for the family sauna.

Saunaheater in a classic design with proven functionally safe interior construction with a small footprint. Only about 0,14 square meters floor area required at 9 kW heating capacity.

The double-casing construction ensures direct heat dissipation and convection with optimal air exchange. This results in a dry and pleasant sauna climate by a low-noise operation.

Heating power per heating element only 1000 watts, therefore low surface load (3,2 watts/cm²) and long service life.

Optional equipment:  Stone-collar „SK“ from stainless steel  
Attachment for more sauna-stones. (approx. 18 kg)

### Technical Datas:

Outer casing:	SE 33: Chromium-steel (shiny) – all 4 sides S 33: „real Enamel“ – anthracite-colored (scratch-resistant, temperature-resistant, odorless)
Top-plate:	Stainless steel, brushed
Stone-basket:	Chrome-steel, without contact to the heating-elements
Rear/Backside:	SE 33: Chromium-steel (shiny) S 33: galvanized – optional in outer casing version „real Enamel“ – anthracite-colored
Foot-frame:	Chrome-steel with drip protection
Electric connection:	integrated, by 2 screws fixed rear panel
Heating elements:	à 1000 watts, very low heating rod load (3,2 watts/cm²) and long life term.
Heating capacities:	4   5   6   7   8 and 9 kW
Power connection:	400V 3N AC
Dimensions (WxDxH):	33 x 44 x 70 cm
Safety distance:	minimum 7 cm around flammable parts
Stone filling:	approx. 10 kg / with Stone-collar „SK“: approx. 18 kg
Heater weight net:	approx. 18 kg

Recommended room size of the sauna cabin according to the table. (Basic = RAL-Guideline for sauna cabins in buildings)

Heating-power kW	4	5	6	7	8	9
Suitable for Sauna cabins m³	4 – 5	5 – 6	6 – 8	7 – 9	8 – 10	9 – 12
